

MARATHON FPX™

PREMIUM FLAT PLATE MOTIVE POWER BATTERIES

For lift trucks Class I, II, III

NEW!

NEW DESIGN. NEW PROCESS. NEW PERFORMANCE.

The all new GNB® Marathon FPX™ batteries deliver premium, cost-efficient power and extended durability and reliability to get the job done. Engineered for premium performance and boasting the highest flat plate cycle performance (1600) warranty in the industry, FPX batteries deliver dependable performance to power your heavy-duty needs. Investments in process enhancements and world-class grid design, combined with the most durable paste in the industry, result in a superior flat plate product. The improved performance and extended cycle life of the Marathon FPX will boost your medium to heavy-duty trucks' run time and reduce maintenance over the life of the battery. Trust Marathon FPX batteries to work just as hard as you do to power your business forward.

IMPROVED FLAT PLATE GRID PATTERN AND HIGHER PASTE DENSITY REINFORCE CYCLE LIFE

WORLD CLASS PROCESS IMPROVEMENTS AND NEW DESIGN DELIVER INCREASED DURABILITY AND PERFORMANCE

- Industry-leading flat plate cycle performance (1600 or 5 years) extended warranty delivers up to three additional months of usage*
- Up to 10% more active material increases paste weight reducing chemical and physical stress during discharge
- Charged on state-of-the-art Inbatec** advanced flow-thru formation equipment that simultaneously controls acid temperature, acid concentration and current to protect paste integrity and increase charge/discharge performance and cycle life
- Improved plate curing process and equipment result in a superior plate that has the highest level of paste cohesion and structural integrity improving durability and performance
- Increased antimony in the positive grid alloy to 5.4% reduces corrosion and extends cycle life
- Improved gravity control reduces peak gravity and results in lower corrosion and longer cycle life

*Based on one cycle per day, the 1600 cycle warranty extends for 100 more days of use over a 1500 cycle warranty

**Equipment manufactured by Inbatec™ GmbH

MARATHON FPX™ DATA:

TYPE	Ah	HEIGHT (without cover)	HEIGHT (with cover)	PLATES
85F	85	22.6"	23.3"	5-33
100F	100	25.6"	26.3"	5-33
125F	125	30.5"	31.0"	5-25

RECYCLE WITH EXIDE

EXIDE TOTAL BATTERY MANAGEMENT (TBM)

Exide is one of the largest secondary lead recyclers in the world, and one of the few companies with the ability to provide Total Battery Management, helping to divert batteries from the waste stream by returning the recycled materials to new products. Our commitment to recycling and environmental responsibility is unwavering.

Made with some imported components
